

Vehicle Valuations for Auto

Enable vehicle valuation precision with comprehensive sales intelligence.

✓ Enhance pricing accuracy

Access current and reliable, industry-standard trade and retail values via multiple channels.

✓ Deliver a better experience for customers

Facilitate quick trade, finance and insurance decisions with accurate valuations based on market activity.

✓ Expand your digital capabilities

Leverage online channel convenience via mobile or web for insightful valuation assessments.

Vehicle Valuations delivers a reliable industry standard for vehicle values, allowing auto dealers, lenders and insurers to make better informed decisions. When combined with other features within TransUnion ICheck, you'll access in-depth insights into comprehensive market and trade data to determine vehicle values with confidence.

An essential digital tool for dealers

Auto dealers, insurers and lenders rely on current and reliable vehicle valuations to make better decisions. When used as part of TransUnion ICheck, you'll get instant digital access to industry standard, current trade, retail and residual benchmark values of new and used passenger and commercial vehicles.

Extract value through data insight

Vehicle Valuations helps you make informed and less risky decisions. Extending beyond traditional data points and best estimates, our solution is one of four elements offered through an easy-to-use digital tool – ICheck. By harnessing the power of the largest database of vehicle manufacturers, along with financing and valuation records in South Africa, you'll make well-informed vehicle valuation decisions instantly.

Product features:

- **Precise values based on vehicle pedigree**
Get current retail and trade valuations – based on sales information from various sources nationwide in conjunction with mileage and condition adjustments – to make smarter trading, finance equity and insurance value decisions.
- **In-depth insights and relevant sales**
Rely on trusted data that's analysed by an experienced team of independent, specialist editors to ensure values reflect changes in a dynamic market.

Auto Dealer benefits:

- Competitive pricing when trading vehicles
- Better buying decisions with access to true market values

Insurer benefits:

- Insure vehicles and risk at the right value
- Determine accurate premiums and claims payouts
- Adjust insured sums correctly with industry-accepted values for 'extras'
- Assess the correct settlement value at time of claim

→ Comprehensive national trade data

A substantial amount of vehicle returns are received monthly from manufacturer's and dealer groups, as well as franchised and non-franchised dealers across South Africa.

→ The reliable industry standard for valuations

Our valuation guides are indispensable for anyone buying, selling, financing, insuring, scrapping or writing-off vehicles.

Auto Lender benefits:

- Determine the right equity when financing a vehicle
- Make better risk decisions with access to true market values
