****Brazil only answer options

Expect to Be Unable to Pay at Least One of Their Current Bills and Loans in Full

(X%) Percentage point change from Q2 2026

TransUnion's Consumer Pulse survey of 11,582 consumers was conducted July 15–27 by TransUnion in partnership with third-party research provider, Dynata. Adults 18 years of age and older residing in Brazil, Canada, Chile, Colombia, the Dominican Republic, Guatemala, Hong Kong, the Philippines, South Africa, the UK, and the US were surveyed using an online research panel method across a combination of desktop, mobile and tablet devices. Survey questions were administered in English, Chinese (Hong Kong), French (Canada), Portuguese (Brazil) and Spanish (Chile, Colombia, the Dominican Republic, and Guatemala). To increase representativeness across resident demographics, the survey included quotas to balance responses to the census statistics dimensions of age, gender, household income and region. Generations are defined in this research as follows: Gen Z, 18–29 years old; Millennials, 30–45 years old; Gen X, 46–61 years old; and Baby Boomers, age 62 and above. Please note some chart percentages may not add up to 100% due to rounding or multiple answers being accepted.
